MILKMAIDS COMING

COMIC OPERETTA WILL BE GIVEN BY NORMAL CHORAL CLASSES.

JUST ABOUT XMAS TIME

Leading Soloists of the City Will Assist in Production Under Direction of Mr. Landon.

"The Merry Milkmaids," the amateur operetta that is to be staged by the choral classes of the Normal, assisted by some of the leading soloists of the city, will be put on just before the opening of the Christmas holidays. Prof. P. O. Landon, who is directing the rehearsals, feels that the choruses are already in excellent shape, and that a few more pointers in stage action remain to be given to have the play in shape for presentation. "The Merry Milkmaids" was presented in Maryville a number of years ago, and although at that time it was a grand success, Director Landon promises some new and unique features in the costuming and scenic effects.

Whether the play will be given in the Normal auditorium or at the Empire theater will depend on the condition of the weather.

\$12,000 Land and Store Trade.

Hockett & Sons have traded their general store at Quitman for a farm of 308 acres in Dallas county, Missouri, to F. C. Wilson. The stock of goods is being invoiced this week and the exchange will be made at once. Mr. Wilson takes the stock of goods, the fixtures, hearse, delivery wagon, three residence properties at Quitman, some horses and a few household goods, such things that are hard to ship. Hacketts get from him beside the farm, some stock, implements and a few household goods. It was nearly a clean "swap" all around. The farm was valued at \$12,000, and the Hackett property will involve about that amount.—Graham Record.

Went Back to Their Buckeye Home.

Messrs. Miles Cook and Ellwood Miller of Skidmore started Thursday for Mt. Gilead, O., where they will visit relatives and old friends for five or six weeks. It has been twenty-five years since Mr. Miller came to Missouri, and twenty-one years since he was back to his old home. Mr. Cook shook the dust from his feet in Ohio thirty-three years ago and came with his parents to Missouri in 1836. He has been back to his old home several times since then.—Graham Record.

45,000 Bushels Threshed.

Robert Merritt made quite a record threshing this fall. He commenced July 17 and pulled in on October 30 with over 45,000 bushels of wheat and oats tallied up to his credit. Considerably over half of this amount was wheat. This not only proves that Mr. Merritt is some thresher, but that this part of the county raises some wheat.—Graham Record.

NO BULL MOOSERS

DEACON MOOREHEAD SINGS OF THE SWEET BYE-AND-BYE.

WHENTROUBLES WILL END

No Democratic Landslides or Moosers in the City Whose Streets Are Paved With Gold.

Deacon Moorehead of the Hopkins Journal, feeling the near approach of the political headman's axe, raises his voice in a spirit of resignation to the inevitable in this week's issue of his paper thusly:

With the election of Wilson several candidates are already in the field for the Hopkins postoffice.

Go after it, boys, the plum is yours and here's hoping that the man with the longest pole will knock the persimmon.

The present postmaster (and by the way, he happens to be the editor of this paper and the author of this squib) will have no hard feelings toward any of you; in fact, he will be glad to turn the job over to the successful candidate when his commission as postmaster expires, which will be in one year after Mr. Wilson is inaugurated as president.

To the victor belongs the spoils, and we are not grabbing at anything that doesn't belong to us. We have been poor all our life, so it will not go hard with us to feed on "the husks" the few remaining years we have on this terrestrial sphere. It will make the milk and honey taste all the sweeter when we are given our final reward in that country where the streets are paved with gold, and where Democratic landslides are unknown in heaven above where all is love—there will be no Bull Moosers there!

SHIP EGGS BY MAIL

POSSIBILITIES OF PARCEL POST BEING FIGURED OUT.

OTHER PRODUCE ALSO

The New Law Makes Parcel Post to and From Office on Rural Routes Easy of Delivery.

Already the American parcel post, which is to go into effect January 1, is awakening the keen inventive American mind, according to the Kansas City Star. A business-like man called on J. H. Harris, postmaster, this morning and wanted to know what the government specifications were for containers, in which to ship eggs and other fragile products by parcel post. Mr. Harris told him the postoffice department had not as yet specified the type of containers to be used, but would undoubtedly be glad to receive practical suggestions.

The man said he had no invention to offer, but believed the government's new line of activity as a common carrier opened up a new field to inventors and to certain forms of manufactures.

That the postoffice department has not yet specified the kind of containers is not neglectful, as it may seem, for the present rules governing the package of liquors in bottles and other easily breakable products that are sent through the mails. There are various types of satisfactory containers in which manufacturers of drugs, syrups and wines have shipped sample bottles of their goods.

These containers are cheaply manufactured and when a bottle is placed in one of them it can be tossed across the room without injuring the bottle. The high postage rates have prevented practically everything except samples being shipped through the mail. Now that the parcel post will reduce postage on merchandise below the express rates these containers will merely have to be enlarged and applied to the shipping of larger quantities.

"But you must remember," said Mr. Harris this morning, "the parcel post will carry farm products, eggs, butter, potatoes and the many things of the field and garden. Most of them can be packed easily, but how they will pack eggs to ship by mail is one of the problems for the department to work out. Possibly the English containers may be largely adopted.

"I suspect the egg problem will be met by a change in the method of handling such mail matter. Now everything is packed so it can be handled with great dispatch. You know an express train dashes along at sixty miles an hour and picks up mail pouches without even hesitating. Railway mail clerks also drop bags and pouches of mail from cars going at great speed. The clerks will have to handle eggs and other merchandise differently. It may seem a little difficult at first, but the department will work it out successfully. They'll do this new egg trick all right."

"Our Personal Guarantee to all Skin Sufferers" J. C. Ferritor, Druggist

We have been in business in this town
for some time, and we are looking to
build up trade by always advising our
patrons right.
So when we tell you that we have
found the eczema remedy and that we
stand back of it with the manufacturer's
iron clad guarantee, backed by ourselves
you can depend upon it that we give our
advice not in order to sell a few bottles
of medicine to skin sufferers, but be-
cause we know how it will help our
business if we help our patrons.
We keep in stock and sell all the well
known skin remedies. But we will say
this: If you are suffering from any
kind of skin trouble, eczema, psoriasis,
rash or tetter, we want you to try a full
bottle of D. D. D. Prescription.
And, if it does not do the work, this
bottle will cost you nothing. You alone
to judge.
Again and again we have seen how a
few drops of this simple wash applied
to the skin, takes away the itch, in-
flaming, and the cures all seem to be
permanent.
D. D. D. Prescription made by the
D. D. D. Laboratories of Chicago is
composed of thymol, glycerine, oil of
wintergreen and other healing, soothing,
cooling ingredients. And if you are
just crazy with itch, you will find
just what you need. The itch absolutely
soothed and cooled, the itch absolutely
driven away the moment you applied
this D. D. D.
We have made fast friends of more
than one family by recommending this
remedy to a skin sufferer here and
there and we want you to try it now
on our positive no-pay guarantee.

NEW YORK POLICE PLANNED ROBBERY

Plot Cleverly Executed Resulted in
Promotion for Conspirators.

STARTLING TESTIMONY GIVEN

Convicts Tell of Plan to Rob Old
Woman—Forced to Plead Guilty
Retaliate by Giving
Information.

New York, Nov. 14.—Two New York policemen plotted robberies and carried them out so cleverly that, instead of being suspected, they were promoted to first grade detectives for their supposedly good work in connection with the crimes, according to "Sling Sling" evidence just read into the police investigation records.

The testimony startled the members of the aldermanic committee, notwithstanding the sources of the allegations were two men convicted of the robberies in question, who now are serving terms in prison.

Emery R. Buckner, counsel for the committee, pressed for a reading of the convicts' affidavits, which he himself had obtained. The advisability of hearing them was sharply questioned and heatedly argued before it was decided to listen.

Conspired With Robbers.
Buckner read first the affidavit of Frank Paresi, who declared that two policemen known to him as "Al" and "Leo" conspired with him for the robbery of a house and of a woman patron of a bank. In the latter case, which was the more sensational, it was alleged that the policeman told Paresi and his comrades of a woman accustomed to carry a large sum to an East Side savings bank and that the officers participated in a plot to rob her. A bag containing \$2,000 was snatched from the woman in a crowd at the bank door.

It happened that detectives nearby opened fire, and the plain clothes officers were forced to draw their revolvers also, participating in the arrest of the men with whom it is alleged they planned the robbery. Paresi alleged he was forced to plead guilty by threats that otherwise he would be mixed up in the \$25,000 taxicab robbery, which occurred about that time. Paresi also declared that after his arrest he was beaten and blackjacked at police headquarters by detectives.

Absent From Trial.
Buckner pointed out that neither of the two policemen concerned in the alleged robbery plot, whose names he gave as Loderio Gambrelli and Angelo Cava, appeared at the trial of either Paresi or his comrades. Paresi's allegations were given to the district attorney at the time, but he refused to believe at the trial. Buckner declared he would state in the morning the circumstances under which the two officers were promoted to first grade detectives for their work in capturing Paresi and others in the crowd.

WOMEN JUPORS IN KANSAS TOWN
Chicken Stealing Case Tried at Louisville, Kan.—Reached Verdict After Two Hours

Wamego, Kan., Nov. 14.—The similarity of White Plymouth Rock chickens caused trouble between two neighbors in Louisville, a village five miles north of this city, which resulted in a charge being brought against Mrs. Mina Johnson by Mrs. George Raine, both of Louisville, and a trial before a jury composed of six women of Wamego.

Mrs. Raine charged Mrs. Johnson with the theft of four White Plymouth Rock hens. The case was tried before J. A. Prunty, a justice of the peace in Wamego. The charge was filed against Mrs. Johnson on election day. When the case came to trial Mrs. Johnson demanded a trial by jury, and that the persons summoned under venire facias for jury service be women. The jury finally was drawn as requested.

After almost two hours' deliberation a verdict of not guilty was returned.

Blind Woman Burned to Death.
Paola, Kan., Nov. 14.—Blind and almost helpless, Mrs. Henry Thompson was burned to death in a fire which destroyed her little home in the northwest part of this city. She lived alone. No one knows how the fire started. After the flames had been extinguished her charred body was found in the cellar of the house.

Women "Cops" for Capital.
Washington, Nov. 14.—Women police are being urged for the national capital by prominent club women. A social betterment committee is in charge of the movement. The crusade will be begun November 15 when Mrs. A. H. Wells, the policewoman of Los Angeles, will give a lecture.

Smothered His Own Child.
Chicago, Nov. 14.—Police are seeking Charles Rose, 57, who smothered his two-year-old daughter, Beatrice, and left a note saying he murdered the child to revenge himself on her mother, who was, he said, unfaithful to him. The murder of the child was discovered by her mother.

More New Coats

We have just received a shipment of Coats for women and misses—all new fabrics, styles and designs. The Scotch mixtures, chincillas and boucles are the most popular fabrics this season, so we have ordered them in this shipment. We have been careful to order styles and designs which have not been shown in Maryville this fall. We are sure you will be pleased with this assortment.

Style Tendencies in Veils

Here is the latest from the style centers. The plain meshes in the following colors are the favorites—the mignie, black, taupe and brown. The daintier and neater they are the more popular they seem to be. Some of the more elaborate mesh veilings have a dotted appearance where the meshes intersect. The white, mignie and black Shetlands are next in order of popularity. There is also a great demand for Chenille-dotted veilings. Black is the dominant color this season with taupe a close second.

Combs

We want to call attention to the fact that we have again anticipated the demands of Dame Fashion in the selection of our Combs. Back Combs are in great demand this season. Our showing includes a complete line of Shell Combs inlaid with rhinestones, pearls, brilliants, emeralds and amethysts. The prices range from 25c to \$4.00.

Children's Sleepers and Gowns

CLEANS THE HAIR AND MAKE IT BEAUTIFUL—25 CENT "DANDERINE"

IN A FEW MOMENTS YOUR HAIR LOOKS SOFT, FLUFFY, LUSTROUS AND ABUNDANT—NO FALLING HAIR OR DANDRUFF.

Surely try a "Danderine Hair Cleanser" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or any excessive oil. In a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and brilliance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff; cleanses, puri-

fies and invigorates the scalp, forever stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

HOME RULE FIGHT ENDED IN RIOT

Sir William Bull Ordered From House for Insulting Asquith.

UNIONISTS FORCE ADJOURNMENT

British Parliament Scene of Wildest Disorder Since Gladstone's Day—Heavy Books Hurled Across Room.

London, Nov. 14.—The house of commons, the popular house of the "mother of parliaments," was the scene of a riot at night over Premier Asquith's proposal to rescind the action of Monday, when the Unionists carried by a majority of 22 Sir Frederick Balfour's amendment defeating the most important financial feature of the home rule bill.

The Unionists refused to permit the debate, and the speaker was forced to adjourn the session on account of the disorder. This is an extremely rare necessity and the situation is considered a critical one.

Will Keep It Up.

The Unionists almost unanimously threaten that they will continue to make business in the house impossible unless the prime minister accepts the amendments or drops the home rule bill. They declare that his action is unprecedented and will be obstructed by unprecedented measures.

The uproar far exceeded that which attended Premier Asquith's speech when he introduced the home rule bill, and has not been equaled since the free fight over Gladstone's first home rule measure.

Ordered From Floor.

Sir William Bull, Unionist for Hampshire, was ordered from the floor for repeatedly calling Mr. Asquith a "traitor."

After adjournment the Unionists doubled up programs and threw them across the floor at the prime minister. Winston Spencer Churchill, first lord of the admiralty, was hit with a heavy book, hurled from the camp of the enemy. A fight appeared imminent until Will Crooks, the labor member, poured oil on the troubled waters by starting the singing of "Auld Lang Syne."

When the session began there were packed benches. The premier's followers gave him a great cheer on his entrance, and demonstrated that they were present in force by defeating a motion to adjourn early in the proceedings by a vote of 287 to 218.

Asquith is Indignant.

On the Unionist side was a seething mob. An arm was raised and a document flew across the room. It struck the prime minister on the shoulder. Mr. Asquith, white and indignant, faced the attack with folded arms. The air was thick with papers and hats. At length the prime minister stalked to the door, greeted with yells of denunciation and approval.

Lewis Harcourt, secretary of state for the colonies, attempted to speak. He was on his feet for several minutes. Every sentence was drowned by Unionist shouts and derisive cries for Lloyd George. Harcourt finally took his seat.

NO DEMAND FOR JOBS IN TURKEY

University of Kansas Men Turn Down Offers to Teach in Balkan Regions.

Lawrence, Kan., Nov. 14.—With war sputtering in the Balkan region, University of Kansas men prefer their own campus to the foreign trouble district.

Roy Stockwell, manager of the University Young Men's Christian association, called for volunteers this week for two tutoring positions in Turkey. One man is desired to teach in St. Paul's Collegiate institute at Taurus in Asia Minor and another for the Bithynia High school at Bardegaz, three hours from Constantinople.

All K. U. men were notified of the vacancies, but the positions are still open.

FOUND ZINC IN DIGGING WELL

Rich Deposit Discovered Near Belton, Mo.—Samples Assayed of Good Quality.

Belton, Mo., Nov. 14.—While M. P. Perkins, who lives a mile and a half south of Belton, was digging a well he found a stratum of zinc bearing rock.

The digging was begun in stone on the surface and for the first 30 feet the ordinary limestone which prevails throughout this locality was encountered. Under that was a deposit of soapstone.

After going through that, and about 40 feet from the surface, a richly laden stratum of zinc bearing rock was found. Samples of the ore have been assayed and proved to be very rich and of a high quality.

Thief Got \$60,000 in Jewels.

Paris, Nov. 14.—Theft of jewelry worth \$60,000 from a shop on the Place de l'Opera caused a sensation. The thief crept through a temporary partition connecting the shop with an adjoining building and made off with the jewels without being noticed, although several salesmen were on duty.

IF CONSTIPATED OR BILIOUS—"CASCARETS"

What Glasses Are to Weak Eyes, Cascarets Are to Weak Bowels—A 10-Cent Box Will Truly Amaze You.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.—Advertisement.

TROUBLE IN SIGHT FOR MAJOR

Home Rule for Cities Bids Fair to Both New Governor More Than Patronage.

Jefferson City, Nov. 14.—It is not the officeholders who are preparing to make trouble for Governor-elect Major as soon as he begins dispensing patronage. Home rule for the large cities is the great anxiety now on the mind of the governor-elect, and it will grow with time, unless all indications and the experiences of his two predecessors are misleading.

When the home rule plans and specifications are submitted to the coming legislature, one of the very first questions asked will be this:

"If the large cities are granted absolute home rule in all municipal matters, including the police and excise departments, what assurances have we that the dram shops, the wine-rooms and the gambling dens will not be opened and flourish as they did prior to the coming of Governor Folk?"

It is believed by those who ought to know what they are talking about that this very feature of home rule will create a moral issue in the state which neither the governor nor any other statesman who cares for his political future will care to antagonize.

I thought I had to suffer this way as long as I lived, but when I began to take Thedford's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned.

PANAMA CANAL RATE PUBLISHED

President Taft Issues Proclamation Naming Tolls to be Charged.

BRITISH PROTEST IS IGNORED

American Naval Vessels Exempted From Payment—Report Has Been Eagerly Awaited by Shipping Interests of World.

Washington, Nov. 14.—President Taft issued a proclamation fixing the rate foreign shipping shall pay for passage through the Panama canal. The proclamation establishes a merchant vessel rate of \$1.20 per net ton of actual carrying capacity, with a reduction of 40 per cent on ships in ballast.

American coastwise shipping was exempted from toll payment by congress. It was to this provision of the act that Great Britain diplomatically protested, but no reference to the protest was made in the president's proclamation.

American naval vessels are exempted without specific mention either in the act of congress or the proclamation.

Self-Sustaining in 20 Years.

The president based his declaration of rates upon the report and investigation of Prof. Emory R. Johnson of the University of Pennsylvania, an expert designated by executive order for the task. The report has been awaited with interest by shipping interests throughout the world.

According to Prof. Johnson's report to the president, also just made public the Panama canal should be upon a self sustaining basis in 20 years. It should compete successfully with the Suez route for the traffic of Europe with South American west coast points and with New Zealand, but cannot be expected to compete successfully for Europe's trade to the Far East.

Big Profit Expected.

Taking the estimates of the canal commission for expenses of operation and maintenance of the canal and for the improvements held to be necessary at the end of a decade, Prof. Johnson figures that the rate per net ton can be reduced at the end of ten years to \$1. Even with this rate, which he says probably will correspond closely with the rate that may then be enforced through the Suez canal, the United States will obtain enough revenue from foreign vessels to pay all fixed charges, provide a sinking fund of 1 per cent to retire the Panama canal bonds and still find a yearly balance.

MILKMAIDS COMING

COMIC OPERETTA WILL BE GIVEN BY NORMAL CHORAL CLASSES.

JUST ABOUT XMAS TIME

Leading Soloists of the City Will Assist in Production Under Direction of Mr. Landon.

"The Merry Milkmaids," the amateur operetta that is to be staged by the choral classes of the Normal, assisted by some of the leading soloists of the city, will be put on just before the opening of the Christmas holidays. Prof. P. O. Landon, who is directing the rehearsals, feels that the choruses are already in excellent shape, and that a few more pointers in stage action remain to be given into have the play in shape for presentation. "The Merry Milkmaids" was presented in Maryville a number of years ago, and although at that time it was a grand success, Director Landon promises some new and unique features in the costuming and scenic effects.

Whether the play will be given in the Normal auditorium or at the Empire theater will depend on the condition of the weather.

\$12,000 Land and Store Trade.

Hockett & Sons have traded their general store at Quitman for a farm of 308 acres in Dallas county, Missouri, to F. C. Wilson. The stock of goods is being invoiced this week and the exchange will be made at once. Mr. Wilson takes the stock of goods, the fixtures, hearse, delivery wagon, three residence properties at Quitman, some horses and a few household goods, such things that are hard to ship. Hacketts get from him beside the farm, some stock, implements and a few household goods. It was nearly a clean "swap" all around. The farm was valued at \$12,000, and the Hackett property will involve about that amount.—Graham Record.

Went Back to Their Buckeye Home.

Messrs. Miles Cook and Ellwood Miller of Skidmore started Thursday for Mt. Gleed, O., where they will visit relatives and old friends for five or six weeks. It has been twenty-five years since Mr. Miller came to Missouri, and twenty-one years since he was back to his old home. Mr. Cook shook the dust from his feet in Ohio thirty-three years ago and came with his parents to Missouri in 1896. He has been back to his old home several times since then.—Graham Record.

45,000 Bushels Threshed.

Robert Merritt made quite a record threshing this fall. He commenced July 17 and pulled in on October 30 with over 45,000 bushels of wheat and oats tallied up to his credit. Considerably over half of this amount was wheat. This not only proves that Mr. Merritt is some thresher, but that this part of the county raises some wheat.—Graham Record.

Announcement.

NO BULL MOOSERS

DEACON MOOREHEAD SINGS OF THE SWEET BYE-AND-BYE.

WHENTROUBLES WILL ENO

No Democratic Landslides or Moosers in the City Whose Streets Are Paved With Gold.

Deacon Moorehead of the Hopkins Journal, feeling the near approach of the political headman's axe, raises his voice in a spirit of resignation to the inevitable in this week's issue of his paper thusly:

With the election of Wilson several candidates are already in the field for the Hopkins postoffice.

Go after it, boys, the plum is yours and here's hoping that the man with the longest pole will knock the per-simmon.

The present postmaster (and by the way, he happens to be the editor of this paper and the author of this squib) will have no hard feelings toward any of you; in fact, he will be glad to turn the job over to the successful candidate when his commission as postmaster expires, which will be in one year after Mr. Wilson is inaugurated as president.

To the victor belongs the spoils, and we are not grabbing at anything that doesn't belong to us. We have been poor all our life, so it will not go hard with us to feed on "the husks" the few remaining years we have on this terrestrial sphere. It will make the milk and honey taste all the sweeter when we are given our final reward in that country where the streets are paved with gold, and where Democratic landslides are unknown—in heaven above where all is love—there will be no Bull Moosers there!

POSSIBILITIES OF PARCEL POST BEING FIGURED OUT.

The New Law Makes Parcel Post to and From Office on Rural Routes Easy of Delivery.

Already the American parcel post, which is to go into effect January 1, is awakening the keen inventive American mind, according to the Kansas City Star. A business-like man called on J. H. Harris, postmaster, this morning and wanted to know what the government specifications were for containers, in which to ship eggs and other fragile products by parcel post. Mr. Harris told him the postoffice department had not as yet specified the type of containers to be used, but would undoubtedly be glad to receive practical suggestions.

The man said he had no invention to offer, but believed the government's new line of activity as a common carrier opened up a new field to inventors and to certain forms of manufacturers.

That the postoffice department has not yet specified the kind of containers is not neglectful, as it may seem, for the present rules governing the package of liquors in bottles and other easily breakable products that are sent through the mails. There are various types of satisfactory containers in which manufacturers of drugs, syrups and wines have shipped sample bottles of their goods.

These containers are cheaply manufactured and when a bottle is placed in one of them it can be tossed across the room without injuring the bottle. The high postage rates have prevented practically everything except samples being shipped through the mail. Now that the parcel post will reduce postage on merchandise below

NEW YORK POLICE PLANNED ROBBERY

Plot Cleverly Executed Resulted in
Promotion for Conspirators.

STARTLING TESTIMONY GIVEN

Convicts Tell of Plan to Rob Old
Woman—Forced to Plead Guilty
Retaliate by Giving
Information.

New York, Nov. 14.—Two New York policemen plotted robberies and carried them out so cleverly that, instead of being suspected, they were promoted to first grade detectives for their supposed good work in connection with the crimes, according to "Sing Sing evidence" just read into the police investigation records.

The testimony startled the members of the aldermanic committee, notwithstanding the sources of the allegations were two men convicted of the robberies in question, who now are serving terms in prison.

Emery R. Buckner, counsel for the committee, pressed for a reading of the convicts' affidavits, which he himself had obtained. The advisability of hearing them was sharply questioned and heatedly argued before it was decided to listen.

Conspired With Robbers.

Buckner read first the affidavit of Frank Paresi, who declared that two policemen known to him as "Al" and "Leo" conspired with him for the robbery of a house and of a woman patron of a bank. In the latter case, which was the more sensational, it was alleged that the policeman told Paresi and his comrades of a woman accustomed to carry a large sum to an East Side savings bank and that the officers participated in a plot to rob her. A bag containing \$2,000 was snatched from the woman in a crowd at the bank door.

It happened that detectives nearby opened fire, and the plain clothes officers were forced to draw their revolvers also, participating in the arrest of the men with whom it is alleged they planned the robbery. Paresi alleged he was forced to plead guilty by threats that otherwise he would be mixed up in the \$25,000 taxicab robbery, which occurred about that time. Paresi also declared that after his arrest he was beaten and blackballed at police headquarters by detectives.

Absent From Trial.

Buckner pointed out that neither of the two policemen concerned in the alleged robbery plot, whose names he gave as Laderio Gambrella and Angelo Cava, appeared at the trial of either Paresi or his comrades. Paresi's allegations were given to the district attorney at the time, but he refused to believe the story and it was not read at the trial. Buckner declared he would state in the morning the circumstances under which the two officers were promoted to first grade detectives for their work in capturing Paresi and others in the crowd.

WOMEN JUPERS IN KANSAS TOWN

Chicken Stealing Case Tried at Louisville, Kan.—Reached Verdict After Two Hours.

Wamego, Kan., Nov. 14.—The similarity of White Plymouth Rock chickens caused trouble between two neighbors in Louisville, a village five miles north of this city, which resulted in a charge being brought against Mrs. Mina Johnson by Mrs. George Raine, both of Louisville, and a trial before a jury composed of six women of Wamego.

Mrs. Raine charged Mrs. Johnson with the theft of four White Plymouth Rock hens. The case was tried before J. A. Prunty, a justice of the peace in Wamego. The charge was filed against Mrs. Johnson on election day. When the case came to trial Mrs. Johnson demanded a trial by jury, and that the persons summoned under venire facias for jury service be women. The jury finally was drawn as requested.

After almost two hours' deliberation a verdict of not guilty was returned.

Blind Woman Burned to Death.

Paola, Kan., Nov. 14.—Blind and almost helpless, Mrs. Henry Thompson was burned to death in a fire which destroyed her little home in the northwest part of this city. She lived alone. No one knows how the fire started. After the flames had been extinguished her charred body was found in the cellar of the house.

Women "Cops" for Capital.

Washington, Nov. 14.—Women police are being urged for the national capital by prominent club women. A social betterment committee is in charge of the movement. The crusade will be begun November 15 when Mrs. A. H. Wells, the policewoman of Los Angeles, will give a lecture.

Smothered His Own Child.

Chicago, Nov. 14.—Police are seeking Charles Rose, 57, who smothered his two-year-old daughter, Beatrice, and left a note saying he murdered the child to revenge himself on her mother, who was, he said, unfaithful to him. The murder of the child was discovered by her mother.

More New Coats

We have just received a shipment of Coats for women and misses—all new fabrics, styles and designs. The Scotch mixtures, chincillas and boucles are the most popular fabrics this season, so we have ordered them in this shipment. We have been careful to order styles and designs which have not been shown in Maryville this fall. We are sure you will be pleased with this assortment.

Style Tendencies in Veils

Here is the latest from the style centers. The plain meshes in the following colors are the favorites—the magpie, black, taupe and brown. The daintier and neater they are the more popular they seem to be. Some of the more elaborate mesh veillings have a dotted appearance where the meshes intersect. The white, magpie and black Shetlands are next in order of popularity. There is also a great demand for Chenille-dotted veillings. Black is the dominant color this season with taupe a close second.

Combs

We want to call attention to the fact that we have again anticipated the demands of Dame Fashion in the selection of our Combs. Back Combs are in great demand this season. Our showing includes a complete line of Shell Combs inlaid with rhinestones, pearls, brilliants, emeralds and amethysts. The prices range from 25c to \$4.00.

HOME RULE FIGHT ENDED IN RIOT

Sir William Bull Ordered From House for Insulting Asquith.

UNIONISTS FORCE ADJOURNMENT

British Parliament Scene of Wildest Disorder Since Gladstone's Day—Heavy Books Hurling Across Room.

London, Nov. 14.—The house of commons, the popular house of the "mother of parliaments," was the scene of a riot at night over Premier Asquith's proposal to rescind the action of Monday, when the Unionists carried by a majority of 22 Sir Frederick Hanbury's amendment defeating the most important financial feature of the home rule bill.

The Unionists refused to permit the debate, and the speaker was forced to adjourn the session on account of the disorder. This is an extremely rare necessity and the situation is considered a critical one.

Will Keep It Up.
The Unionists almost unanimously threaten that they will continue to make business in the house impossible unless the prime minister accepts the amendments or drops the home rule bill. They declare that his action is unprecedented and will be obstructed by unprecedented measures.

The uproar far exceeded that which followed Premier Asquith's speech when he introduced the home rule bill, and has not been equaled since the free fight over Gladstone's first home rule measure.

Ordered From Floor.
Sir William Bull, Unionist for Hamersmith, was ordered from the floor for repeatedly calling Mr. Asquith a "traitor."

After adjournment the Unionists doubled up programs and threw them across the floor at the prime minister. Winston Spencer Churchill, first lord of the admiralty, was hit with a heavy book, hurled from the camp of the enemy. A fight appeared imminent until Will Crooks, the labor member, poured oil on the troubled waters by starting the singing of "Auld Lang Syne."

When the session began there were packed benches. The premier's followers gave him a great cheer on his entrance, and demonstrated that they were present in force by defeating a motion to adjourn early in the proceedings by a vote of 237 to 218.

Asquith is indignant.
On the Unionist side was a seething mob. An arm was raised and a document flew across the room. It struck the prime minister on the shoulder. Mr. Asquith, white and indignant, faced the attack with folded arms. The air was thick with papers and hats. At length the prime minister stalked to the door, greeted with yells of denunciation and approval.

Lewis Harcourt, secretary of state for the colonies, attempted to speak. He was on his feet for several minutes. Every sentence was drowned by Unionist shouts and derisive cries for Lloyd-George. Harcourt finally took his seat.

NO DEMAND FOR JOBS IN TURKEY

University of Kansas Men Turn Down Offers to Teach in Balkan Regions.

Lawrence, Kan., Nov. 14.—With war smoldering in the Balkan region, University of Kansas men prefer their own campus to the foreign trouble district.

Roy Stockwell, manager of the University Young Men's Christian association, called for volunteers this week for two tutoring positions in Turkey. One man is desired to teach in St. Paul's College at Constantinople, and another for the Bithynia high school at Hardeog. Three hours from Constantinople.

All K. U. men were notified of the vacancies, but the positions are still open.

FOUND ZINC IN DIGGING WELL

Rich Deposit Discovered Near Belton, Mo.—Samples Assayed of Good Quality.

Belton, Mo., Nov. 14.—While M. P. Perkins, who lives a mile and a half south of Belton, was digging a well he found a stratum of zinc bearing rock. The digging was begun in stone on the surface and for the first 30 feet the ordinary limestone which prevails throughout this locality was encountered. Under that was a deposit of soapstone.

After going through that, and about 10 feet from the surface, a richly laden stratum of zinc bearing rock was found. Samples of the ore have been assayed and proved to be very rich and of a high quality.

Thief Got \$60,000 in Jewels.
Paris, Nov. 14.—Theft of jewelry worth \$60,000 from a shop on the Place de l'Opera in the center of Paris in daylight caused a sensation. The thief crept through a temporary partition connecting the shop with an adjoining building and made off with the jewels without being noticed, although several salesmen were on duty.

IF CONSTIPATED OR BILIOUS—"CASCARETS"

What Glasses Are to Weak Eyes, Cascarets Are to Weak Bowels—A 10-Cent Box Will Truly Amaze You.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.—Advertisement.

TROUBLE IN SIGHT FOR MAJOR

Home Rule for Cities Bids Fair to Bother New Governor More Than Patronage.

Jefferson City, Nov. 14.—It is not the officeholders who are preparing to make trouble for Governor-elect Major as soon as he begins dispensing patronage. Home rule for the large cities is the great anxiety now on the mind of the governor-elect, and it will grow with time, unless all indications and the experiences of his two predecessors are misleading.

When the home rule plans and specifications are submitted to the coming legislature, one of the very first questions asked will be this:

"If the large cities are granted absolute home rule in all municipal matters, including the police and excise departments, what assurances have we that the dram shops, the wine rooms and the gambling dens will not be opened and flourish as they did prior to the coming of Governor Folk?"

It is believed by those who ought to know what they are talking about that this very feature of home rule will create a moral issue in the state which neither the governor nor any other statesman who cares for his political future will care to antagonize.

Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia. I suffered misery after eating, and had terrible heartburn."

I thought I had to suffer this way as long as I lived, but when I began to take Theodor's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned.

I speak a good word for Theodor's Black-Draught whenever I have the opportunity."

PANAMA CANAL RATE PUBLISHED

President Taft Issues Proclamation Naming Tolls to be Charged.

BRITISH PROTEST IS IGNORED

American Naval Vessels Exempted From Payment—Report Has Been Eagerly Awaited by Shipping Interests of World.

Washington, Nov. 14.—President Taft issued a proclamation fixing the rate foreign shipping shall pay for passage through the Panama canal. The proclamation establishes a merchant vessel rate of \$1.20 per net ton of actual carrying capacity, with a reduction of 40 per cent on ships in ballast.

American coastwise shipping was exempted from toll payment by congress. It was to this provision of the act that Great Britain diplomatically protested, but no reference to the protest was made in the president's proclamation.

American naval vessels are exempted without specific mention either in the act of congress or the proclamation.

Self-Sustaining in 20 Years.
The president based his declaration of rates upon the report and investigation of Prof. Emory R. Johnson of the University of Pennsylvania, an expert designated by executive order for the task. The report has been awaited with interest by shipping interests throughout the world.

According to Prof. Johnson's report to the president, also just made public the Panama canal should be upon a self-sustaining basis in 20 years. It should compete successfully with the Suez route for the traffic of Europe with South American west coast points and with New Zealand, but cannot be expected to compete successfully for Europe's trade to the Far East.

Big Profit Expected.
Taking the estimates of the canal commission for expenses of operation and maintenance of the canal and for the improvements held to be necessary at the end of a decade, Prof. Johnson figures that the rate per net ton can be reduced at the end of ten years to \$1. Even with this rate, which he says probably will correspond closely with the rate that may then be enforced through the Suez canal, the United States will obtain enough revenue from foreign vessels to pay all fixed charges, provide a sinking fund of 1 per cent to retire the Panama canal bonds and still find a yearly balance.

Norwalk, O., Nov. 14.—Minnie LaValley, who was tarred by masked men, received an anonymous note threatening death if the six defendants are found guilty.
